PROFILE

With a diploma in new media design & web development under my belt, I bring a passion for frontend development paired with practical experience in branding and digital marketing. Currently gaining valuable insights through an internship in branding, I combine creative design skills with proficiency in frontend technologies like React, JavaScript, and TypeScript. Known for creating user-friendly interfaces, I also have a strong track record in social media management and effective marketing strategies. I'm excited to contribute innovative ideas and collaborate on impactful projects in a professional environment.

EXPERIENCE

Evolve Branding

Junior Web Design Intern

2024

Collaborate with a dynamic team to code and develop websites, as well as create branding, logos, and packaging for startups. Contribute creatively to social media and print materials, refining layouts and enhancing images for customer appeal. Continuously improve design software proficiency, with a passion for supporting team success and development.

Shahnaz Rahimtula Notary Public · Contract

Social Media & Marketing Manager

2023-Present

Managed and created engaging posts for Facebook, Instagram, and LinkedIn to enhance online presence. Developed content strategies, designed visuals, and wrote copy to attract and retain clients. Ensured consistent branding and messaging across all platforms. Passionate about leveraging social media to boost business visibility and connect with the community.
